# Negative Numbers Mystery Activity

the number in the top left and the number in the top right add up to -16

the top row adds up to 0

the number below 20 is -8 - 3

use the clues to solve

3 different puzzles

## instructions

Students must use the clues to work out what the missing numbers in the grid will be. The trick is to look for which clues you can use first, and leave the rest for later.

There are three different versions of this task, which get progressively more difficult.

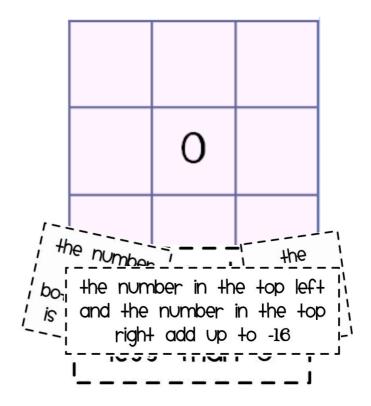

Level 1: Simple shifts on the number line, such as 5 more

than -4, or 6 — 10

**Level 2:** Includes sums such as -3 + -4

**Level 3:** Larger grid, more difficult clues,

requires more logic.
